Custom Shop

A Novell Group Company

- We provide price quotes and CAD renderings within forty-eight hours for customer approval.
- Custom Shop offers 3D printing, so your customers can try on their jewelry before it's put into production.
- Finished pieces are delivered within three to four weeks.
- Every creation is 100% made in America, so there's no waiting for your order to arrive from overseas.
- Our domestic manufacturing muscle, with casting facilities, an extensive machine shop, and a skilled hand fabricating staff, gives our authorized retailers a clear path to market advantage. Some of our other technologies include:

casting - mold making - machine fabricating - finishing
setting - jewelry work - restoration - engraving
braiding - plating
